

INDEX

Note: P standing before the page number, i.e., P596, signifies that the reference is to a part of the Scientific Proceedings of the American Physiological Society

- ABBOTT, O. D., C. F. AHMANN and M. R. OVERSTREET.** Effect of avitaminosis A on the human blood picture, 254.
- ABRAMSON, D. I., H. ZAZEELA and B. S. OPPENHEIMER.** Effect of smoking upon the vascular beds in skin and muscle, as determined by plethysmographic studies in man, P417.
- Absorption and oxidation of orally administered colloidal sulphur, P511.
- , lymphatic, from nasopharynx, 20.
- Acetoacetate, utilization of, P462.
- Acetone in biological fluids, diffusion method for estimation of, P653.
- Activity oxygen consumption, resting and, of muscle, 196.
- ADDIS, T.** Protein intake and protein distribution in the organs and tissues of the body, P417.
- ADES, H.** See **METTLER, ADES, LIPMAN and CULLER**, P584.
- Adrenal cortex and male reproductive system, 368.
- , glycopexic function of, P443.
- cortical extract, effect of, on carbohydrate and protein metabolism, P551.
- extract, refractory state developed after repeated injections of, P563.
- insufficiency, changes in intestinal volume of cats in, P466.
- in monkeys, experimental, P444.
- interrelationships, hypophyseal and, and carbohydrate metabolism, 148.
- , sodium factor of, P527.
- Adrenalectomized rats treated with corticosterone and chemically related compounds, work-performance of, P543.
- Adrenalectomy and adrenalin intoxication, 7.
- , effect of, on blood and urine ketones, 753.
- , —, —, on seminal vesicles and prostates of castrated mice, P539.
- Adrenalin, antagonism of, to autonomic effects of metrazol, P474.
- hyperglycemia: proportionality with dose, 299.
- intoxication, modification of, by adrenalectomy, 7.
- , intra-arterially injected, effect of, on blood flow and respiration, P455.
- molecule and intestinal inhibition, 237.
- , relation of various groups of, to its smooth muscle inhibiting function, P659.
- , skin temperature responses after, P599.
- Adrenals in experimental hypertension, P612.
- Adreno-genital syndrome, P426.
- Age, influence of, on functional survival of severed mammalian nerves, P611.
- AHMANN, C. F.** See **ABBOTT, AHMANN and OVERSTREET**, 254.
- Alcohol, disappearance of, from blood, effect of glucose and insulin on, P504.
- metabolism, relation of liver and insulin to, P463.
- ALEXANDER, F. A. D. and H. E. HIMWICH.** The signs of acute anoxia in man, P418.
- , **B. LIPETZ and H. E. HIMWICH.** Signs of progressive acute anoxia in man, P419.
- See **HIMWICH, ALEXANDER, LIPETZ and FAZEKAS**, P535.
- ALLEN, F. M.** Effects of amorphous,

- crystalline zinc and protamine zinc insulin in animals, P419.
- ALLEN, T. H. See RAY, ALLEN and BODINE, P605.
- ALLEN, W. F. Studies on the central olfactory system based on the effects of brain lesions on conditioned reflexes in dogs, P419.
- ALLES, G. A. Comparative actions of optically isomeric phenisopropylamines, P420.
- ALTHAUSEN, T. L., M. STOCKHOLM and E. M. ANDERSON. Endocrine factors in intestinal absorption, P420.
- ALTMANN, M. Behavior of the sow in relation to the sex cycle, P421.
- AMBERSON, W. R. See OSTER and AMBERSON, P596.
- American Physiological Society, Proceedings, P417.
- Amino acid nitrogen, retention of, in dog, 215.
- , —, —, in rat, 223.
- ANDERSON, C. E. See IRVIN, JOHNSTON and ANDERSON, P544.
- ANDERSON, E. and M. JOSEPH. Urinary excretion of radioactive sodium and potassium in adrenalectomized rats with and without salt, P421.
- ANDERSON, E. M. See ALTHAUSEN, STOCKHOLM and ANDERSON, P420.
- ANDERSON, O. D. The spontaneous neuro-muscular activity of various pure breeds of dog and of interbreed hybrids of the first and second generation, P422.
- , Two cases of experimental neurosis in dogs of known genetic constitution, P421.
- Androgens, keto, spectrophotometric differentiation of, by Zimmermann reaction, P556.
- Androsterone, influence of season and other factors on response of capon comb to, P520.
- Anesthesia, electrical theory of, P451.
- , ether, effects of, on spinal dogs, P613.
- , nembutal, effect of, on response of dogs to cold, P530.
- Anoxia, acute, in man, P418, P419.
- , effects of, on urine flow, P644.
- Anterior pituitary extract, effect of, on deposition and character of body fats in fowl, P582.
- Antiketogenic and glycogenic activity of citric acid and the ketogenic activity of acetic acid and sodium bicarbonate, P568.
- ANTONCIC, R. F. See LAWSON and ANTONCIC, P562.
- Aorta, elasticity of, P478.
- Aortic coarctation, pressure pulses in a case of, P522.
- Apparatus for constant intravascular injection, P613.
- , -microphonic, drop-counter, P616.
- , supporting, timing and recording, P601.
- APPEL, M. and H. NECHELES. Gastric secretion in extragastric malignancy, P423.
- Argon, use of, in deep sea diving, 409.
- ARMSTRONG, C. W. J. and K. C. FISHER. The effect of sodium azide on the frequency of the embryonic fish heart, P423.
- ARNOLD, A. and C. A. ELVEHJEM. Influence of the composition of the diet on the thiamin requirement of dogs, 289.
- Arteries, head, respiratory and cardiovascular response to repeated occlusions of, P469.
- Arteriosclerosis in depancreatized dogs, P479.
- Artery, coronary, differential pressure and blood flow in, P512.
- Astwood, E. B. Changes in the weight and water content of the uterus of the normal adult rat, 162.
- , Time relations in the cyclic release of ovarian hormones in the rat, P424.
- ATKINSON, A. J. See CULMER, ATKINSON and IVY, P472.
- , See SCHMIDT, BEAZELL, BERMAN, IVY and ATKINSON, 120.
- ATKINSON, A. K. See BROWN, ATKINSON and GESELL, P447.
- Atonia following transection of brain stem through the pons, P552.
- Audition, comparative studies of cobra venom and opium alkaloids on, P574.

- AUMANN, K. See YOUMANS and AUMANN, P659.

THE
AMERICAN JOURNAL
OF
PHYSIOLOGY

VOLUME 126

BALTIMORE, MD.
1939

CONTENTS

No. 1. MAY, 1939

Salt Taste Threshold of Humans. <i>Curt P. Richter and Alice MacLean</i>	1
Modification of Adrenalin Intoxication by Adrenalectomy. <i>Leland C. Wyman and Caroline tum Suden</i>	7
The Effect of Resection of the Olfactory, Gustatory and Trigeminal Nerves on Water Drinking in Dogs Without and With Diabetes Insipidus. <i>R. T. Bellows and W. P. Van Wagenen</i>	13
Lymphatic Absorption from the Nasopharynx. <i>Jane D. McCarrell</i>	20
Inhibition of Gastric Motility Associated With the Presence of Products of Protein Hydrolysis in the Upper Small Intestine. <i>J. Earl Thomas and J. O. Crider</i>	28
The Fifth Stage of Neuromuscular Transmission. <i>A. Rosenblueth and J. V. Luco</i>	39
Neuromuscular "Transmission-Fatigue" Produced Without Contraction During Curarization. <i>J. V. Luco and A. Rosenblueth</i>	58
Diffusion of Calcium, Magnesium and Phosphorus into the Peritoneum. The Effect of Intravenously Injected Calcium Salts and of Parathyroid Hormone. <i>A. Cantarow and V. G. Haury</i>	66
The Effect of Carmine upon the Gastrointestinal Motility of Children. <i>Icie G. Macy, Lawrence Reynolds and Helen J. Souders</i>	75
The Effect of Bile on the Propulsive Motility of Thiry-Vella Loops in Dogs. <i>H. F. Haney, W. C. Roley and P. A. Cole</i>	82
The Economy of Effort Index for Hearts of Normal and Hypertensive Subjects. <i>G. W. Wright, W. R. Hallaran and C. J. Wiggers</i>	89
Propagation, and Extension of Excitatory Effects, of the Nerve Action Potential Across Nonresponding Internodes. <i>Edgar A. Blair and Joseph Erlanger</i> ..	97
The Effect of Phospholipid Ingestion Upon the Gas Exchange in Man. <i>Raymond Reiser</i>	109
Studies on the Secretion of Bile. <i>C. R. Schmidt, J. M. Beazell, A. L. Berman, A. C. Ivy and A. J. Atkinson</i>	120
The Effect of Parathyroid Hormone on the Permeability of the Lens Capsule to Calcium. <i>Janet Howell Clark</i>	136
Hemoglobin Production Factors in the Liver. Fish, Frog and Turtle Compared with Domestic Animals. <i>F. S. Robscheit-Robbins and G. H. Whipple</i>	142
Hypophyseal and Adrenal Interrelationships and Carbohydrate Metabolism. <i>E. L. Corey and S. W. Britton</i>	148
Influence of Insulin on Protein Metabolism as Measured by the Nitrogen Balance. <i>Eaton M. MacKay, Richard H. Barnes and H. C. Bergman</i>	155
Increased Spontaneous Activity Produced by Frontal Lobe Lesions in Cats. <i>Orthello R. Langworthy and Curt P. Richter</i>	158
Changes in the Weight and Water Content of the Uterus of the Normal Adult Rat. <i>E. B. Astwood</i>	162
Exercise in the Sympathectomized Cat. <i>Robert Hodes</i>	171
Kinetics of Cholinesterase in Blood and Spinal Fluid. <i>M. B. Bender</i>	180

Oxygen Poisoning in Cardiac Tissue. <i>David F. Bohr and John W. Bean</i>	188
Separation of the Resting Activity Oxygen Consumptions of Frog Muscle by Means of Sodium Azide. <i>J. N. Stannard</i>	196

No. 2. JUNE, 1939

Retention of the Nitrogen of Amino Acids Administered Singly or in Mixtures to Dogs Fed Diets Low in Protein. <i>Ernest K. Nielsen, Louis P. Gerber and Ralph C. Corley</i>	215
Retention of the Nitrogen of Mixtures of Amino Acids Administered to Rats Fed Diets Low in Protein. <i>Ernest K. Nielsen and Ralph C. Corley</i>	223
Induction of Estrous Behavior in Anestrous Cats with the Follicle-Stimulating and Luteinizing Hormones of the Anterior Pituitary Gland. <i>H. B. Friedgood</i>	229
The Influence of Thyroidectomy on the Period of Gestation in the Rabbit. <i>Boris Krichesky</i>	234
Relation of the Various Groups of the Adrenalin Molecule to Its Intestine Inhibiting Function in Unanesthetized Dogs. <i>W. B. Youmans, K. W. Aumann and H. F. Haney</i>	237
Variations in Intramuscular Pressure During Postural and Phasic Contraction of Human Muscle. <i>Frances A. Hellebrandt, Eleanor Fielding Crigler and L. E. A. Kelso</i>	247
Effect of Avitaminosis A on the Human Blood Picture. <i>O. D. Abbott, C. F. Ahmann and M. R. Overstreet</i>	254
The Action of Lead on Phosphocreatine in the Muscular Paralysis of Lead Poisoning. <i>S. E. Steiman</i>	261
The Effect of Duodenal Instillation of Hydrochloric Acid upon the Fasting Blood Sugar of Dogs. <i>E. R. Loew, J. S. Gray and A. C. Ivy</i>	270
The Depressant Action of Strychnine on the Superior Cervical Sympathetic Ganglion and on Skeletal Muscle. <i>A. Lanari and J. V. Lucco</i>	277
Quantitative Relation Between Reactive Hyperemia and the Myocardial Ischemia Which It Follows. <i>L. N. Katz and E. Lindner</i>	283
Influence of the Composition of the Diet on the Thiamin Requirement of Dogs. <i>Aaron Arnold and C. A. Elvehjem</i>	289
Adrenaline Hyperglycemia: Proportionality with Dose. <i>Fred R. Griffith, Jr., Julia E. Lockwood and F. E. Emery</i>	299
The Effect of Piperido-Methyl-3-Benzodioxane (933F) on the Heart of the Frog and the Cat. <i>W. T. Hill and G. S. Myers</i>	305
On the Specificity of Thrombin Action. <i>Alfred Lewin Copley</i>	310
On the Effects of Acutely Raised Intracranial Pressure on Diuresis in the Dog. <i>Melvin R. Salk and Raymond E. Weinstein</i>	316
Bile Pigment and Hemoglobin Interrelation in Anemic Dogs. <i>W. B. Hawkins and A. C. Johnson</i>	326
Plasma Potassium Content of Cardiac Blood at Death. <i>John Scudder, Margaret E. Smith and Charles R. Drew</i>	337
Sodium Chloride and Diabetes Insipidus. <i>H. G. Swann</i>	341
Renal and Vascular Responses to Epinephrine Injections in Glomerular and Aglomerular Fish. <i>Louis A. Toth</i>	347
The Effects of Renin, Pitressin, and Pitressin and Atropine on Renal Blood Flow and Clearance. <i>A. C. Corcoran and Irvine H. Page</i>	354
The Relation of the Adrenal Cortex to the Male Reproductive System. <i>I. Gersh and Arthur Grollman</i>	368*
Nutritive Requirements of Young Pigs. <i>M. M. Wintrobe</i>	375

CONTENTS

v

Iodoacetic Acid and Anaerobic Muscular Contraction. <i>Jacob Sacks</i>	388
Observations on the Innervation of the Coronary Vessels of the Dog. <i>L. N. Katz and K. Jochim</i>	395
The Equality of the Chloride Space and the Extracellular Space of Rat Liver. <i>Frederick L. Truax</i>	402
Respiratory Resistance, Oil-Water Solubility, and Mental Effects of Argon, Compared with Helium and Nitrogen. <i>A. R. Behnke and O. D. Yarbrough</i>	409

No. 3. JULY, 1939

Proceedings of the American Physiological Society	P417
The Coagulant Action of Crystalline Trypsin, Cephalin and Lung Extracts. <i>John H. Ferguson and B. Nims Erickson</i>	661
The Clotting of Hemophilic Plasma by Thromboplastic Enzyme. <i>John H. Ferguson</i>	669
Localization of the Medullary Respiratory Centers in the Cat. <i>R. F. Pitts, H. W. Magoun and S. W. Ranson</i>	673
Interrelations of the Respiratory Centers in the Cat. <i>R. F. Pitts, H. W. Magoun and S. W. Ranson</i>	689
On the Effect of Epinephrine on Blood Potassium. <i>George Brewer, P. S. Larson and A. R. Schroeder</i>	708
A Study of the Comparative Toxicity of Cryolite Fluorine and Sodium Fluoride for the Rat. <i>Robert John Evans and Paul H. Phillips</i>	713
Electrocardiographic Changes and Concentration of Magnesium in Serum Following Intravenous Injection of Magnesium Salts. <i>Paul K. Smith, Alexander W. Winkler and Hebbel E. Hoff</i>	720
The Sensitization of Motoneurons by Partial "Denervation." <i>W. B. Cannon and H. Haimovici</i>	731
Measurement of the Stroke Volume of the Human Heart from Roentgenograms; Simultaneous Roentgenkymographic and Acetylene-Rebreathing Experiments. <i>Ansel Keys and H. L. Friedell</i>	741
Influence of Adrenalectomy on the Blood and Urine Ketones During Fasting and Anterior Pituitary Extract Administration. <i>Eaton M. MacKay and Arne N. Wick</i>	753
The Relationship Between the Central Nervous System and the Reproductive Cycle in the Female Guinea Pig. <i>Edward W. Dempsey</i>	758
Index	767
